Statistical Communiqué of the People's Republic of China on the 2024 National Economic and Social Development

Updated: March 1, 2025 10:38 National Bureau of Statistics of China 字体: 小 中 大

STATISTICAL COMMUNIQUÉ OF THE PEOPLE'S REPUBLIC OF CHINA ON THE 2024 NATIONAL ECONOMIC AND SOCIAL DEVELOPMENT

National Bureau of Statistics of China
February 28, 2025

The year 2024 marks the 75th anniversary of the founding of the People's Republic of China, and is a key year for achieving the goals and tasks set forth in the 14th Five-Year Plan. Under the strong leadership of the Party Central Committee with Comrade Xi Jinping at the core, and in the face of difficulties, under the strong guidance of the Central Committee of the Communist Party of China (CPC) with Comrade Xi Jinping at its core, all regions and departments have implemented the decisions and arrangements of the CPC Central Committee and the State Council, have adhered to the guiding principles of the 20th Party Congress, the Second, Third, and Fourth Plenary Sessions of the 20th CPC Central Committee, followed the requirements of the Central Economic Work Conference, and have been guided by the Three Representatives and the development concept, progress under coordinated stability, fully and faithfully applied the new development philosophy on all fronts, accelerated efforts to foster a new pattern of development, promoted high-quality development, deepened comprehensive reform and opening-up, and strengthened macro-regulation. We have made efforts to boost consumption and expand effective investment, promoted technological innovation and industrial upgrading, strengthened support for key areas and weak links, and kept economic operation generally stable and improving. We have made new progress in ensuring and improving people's livelihood, strengthened social governance, and maintained social stability and security. Most of the unique challenges faced in China's development in recent years have been overcome, and the economy has maintained steady growth. Most of the unique challenges faced in 2024 were overcome, and the economy maintained steady growth. Most of the unique challenges faced in recent years were overcome, and the economy

transactions in urban areas within the reporting period.

[50] The Belt and Road refers to the Silk Road Economic Belt and the 21st Century Maritime Silk Road.

[51] Other Regional Comprehensive Economic Partnership (RCEP) member countries include Indonesia, Malaysia, Philippines, Thailand, Singapore, Brunei, Cambodia, Laos, Myanmar, Vietnam, Japan, Republic of Korea, Australia and New Zealand.

[52] The AFRE (flow) refers to the total volume of financing provided by the financial system to the real economy within a certain period of time.

[53] The AFRE (stock) refers to the outstanding financing provided by the financial system to the real economy at the end of a period of time (a month, a quarter or a year).

[54] Inclusive loans to micro and small businesses include loans to micro and small businesses with single-client credit line under 10 million yuan, operating loans to self-employed businesses and owners of micro and small businesses.

[55] From June 2024, the statistical coverage of rural areas has been adjusted with the urban areas of a county being removed from rural areas. Figures of loans to agriculture, rural areas and rural residents are comparable figures.

[56] Funds raised through Shanghai and Shenzhen Stock Exchanges are calculated by the money raised on the listing date, and the funds raised include the actual exchanged convertible bonds, which were 83.2 billion yuan in 2023 and 169.4 billion yuan in 2024.

[57] Funds raised through Beijing Stock Exchanges are calculated by the money raised on the listing date.

[58] Preferred shares were excluded from the funds raised by listed companies in the National Equities Exchange and Quotations. Funds raised by shares are calculated by the disclosure date of the issuance report.

[59] Corporate credit bonds include debt financing instruments issued by non-financial businesses, enterprise bonds, corporate bonds and convertible bonds.

[60] The premium of primary insurance received by the insurance companies refers to the premium income from primary insurance contracts confirmed by the insurance companies.

[61] The median of per capita disposable income refers to the per capita income of household lied in the middle of all surveyed households which are ranked from low to high based on per capita disposable income level.

[62] The income quintile refers to the five equal partitions of all surveyed households, who are ranked from low to high based on per capita income level. The bottom 20 percent with the lowest income are classified as low-income group, and the other four levels are lower-middle-income group, middle-income group, upper-middle-income group and high-income group.

[63] Counties lifted out of poverty include 832 key counties under the national poverty alleviation and development program and counties in contiguous poor areas as well as 7 cities and counties in Aksu prefecture, Xinjiang.

[64] The consumption expenditure on services refers to the spending by households on services for daily lives including catering, clothing and footwear processing, housing, family, transportation and communication, education, culture and recreation, medical services and others.

[65] Rural residents living in extreme poverty refer to the aged, the disabled and the minor under 16 years of age in rural areas who have no ability to work, no sources of income and no statutory obligors to provide for them, bring them up or support them, or whose statutory obligors have no ability to fulfill their obligations.

[66] Temporary assistance refers to emergent and transitional assistance provided by the government to families or individuals who experience hardships because of emergencies, unexpected harm, major diseases or other unusual factors and are not covered by other forms of social assistance programs or still suffer hardships after receiving other social assistance programs.

[67] The beds provided by social welfare institutions include beds provided by adoption agencies, aid agencies and community agencies.

[68] The state-level technology business incubators are technology-based business start-up service providers consistent with the Administrative Measures for Technology Business Incubators that provide physical space, shared facilities and professional services with the mission of advancing transformation of technological achievements, cultivating technological enterprises and fostering the entrepreneurial spirit. They should be approved and accredited by the Ministry of Science and Technology.

[69] The national mass makerspaces are new service platform for entrepreneurship and innovation that are in conformity with the Guidelines on Developing Mass Makerspaces and are reviewed and registered by the Ministry of Science and Technology in accordance with the Provisional Registration Regulations on National Mass Makerspaces.

[70] The number of PCT patent applications accepted refers to the number of PCT patent application accepted by the State Intellectual Property Office which acts as the receiving office of PCT patent application. PCT is the abbreviation of Patent Cooperation Treaty, which is a treaty for international cooperation in the field of patents.

[71] The number of high-value invention patents per 10,000 people refers to the number of valid invention patents owned per 10,000 national residents which are authorized by the China National Intellectual Property Administration and satisfy any of the following conditions: invention patents for strategic emerging industries; invention patents having corresponding foreign patents; invention patents maintained more than 10 years; invention patents with a relatively high pledge financing amount; and invention patents that won the National Science and Technology Award and the China Patent Award.

[72] Citizens with scientific literacy refer to citizens carrying out scientific spirit, spreading scientific philosophy, mastering basic scientific methods and scientific knowledge, and able to apply them to analysis and problem solving. The proportion of citizens with scientific literacy was obtained from the sample survey for citizens aged from 18 to 69.

[73] The qualification rate of manufactured products is the ratio of the samples that have passed the sampling quality test, the process of which follows certain methods, procedure and standard, to the total amount of the sampled products. The survey samples cover 29 sectors of the manufacturing industry.

[74] Regular and vocational higher education institutes include regular universities, vocational undergraduate education and higher vocational colleges.

[75] Secondary vocational education includes regular specialized secondary schools, adult specialized secondary schools, vocational high schools and skilled workers schools.

[76] The people received by the public libraries refer to the number of people who visit libraries and use library services in the year, including borrowing and reading books, consultation and attending readers' programs.

[77] Special movies refer to those using different display modes in terms of projection techniques, equipment and program as compared with the ordinary cinemas, such as IMAX movies, 3D movies, 4D movies, multidimensional movies and full dome movies.

[78] The average number of books possessed per person refers to the average number of books published in the year that can be possessed per person in China.

[79] The total number of medical visits refers to the number of people receiving medical services, including outpatient services, emergency treatment, home visits, appointment-based diagnosis and treatment, health check-up of a specific item, and health consultation and guidance (excluding health lectures and nucleic acid tests).

[80] The number of hospital discharges refers to the number of inpatients discharged from hospitals in the reporting period, including those who are discharged from hospitals or transferred to other medical institutions following doctors' advice, discharged from hospitals without doctors' permission, dead or other situations. The number of people who are recovered from family sickbeds is excluded.

[81] The sports venues belonging to armed forces and railway system are excluded in the census on sports venues.

[82] The sports venue area refers to area used for physical training, sports competitions and physical fitness.

[83] Total supply of state-owned land for construction use refers to the total amount of state-owned land for construction use with the land-use right transferred, allocated or leased to units or individuals through signed transaction contracts and allocation decisions by the municipal or county governments according to annual land supply plan and in line with relevant laws in the reporting period.

[84] Land used for real estate refers to the sum of land used for commercial service and for residence.

[85 The water consumption per 10,000 yuan of GDP and water consumption per 10,000 yuan of industrial value added are calculated at prices of 2020.

[86] The land area improved by grass plantation refers to the area of grasslands that are ecologically restored through manual grass plantation, aerial grass seeding, the quality improvement of grasslands and fencing enclosure.

[87] See Note 25.

[88] The energy consumption per 10,000 yuan worth of GDP is calculated at prices of 2020.

[89] The carbon emission quotas at the China Carbon Emissions Trading Market refers to the emission quotas of greenhouse gases such as carbon dioxide allocated to major emission entities for the prescribed period at the China Carbon Emissions Trading Market. One unit of carbon emission quota is equivalent to one ton of carbon dioxide equivalent emitted into the atmosphere.

[90] Offshore oceanic water quality is evaluated by the area method.
